THE **Patons** STAR ★ RATING FOR HAND KNIT AND CROCHET — TO HELP **YOU TO CHOOSE THE** **PATTERN** SUITED TO **YOUR** ABILITY.

- ★ One star says this is a **beginner level** of knitting and crochet. Basic stitches only, with simple shaping.
 - ★ ★ Two stars mean **easy knitting and crochet**, with some fancy patterns such as shells, mesh and simple 2 colour patterns.
 - ★ ★ ★ Three stars are for **advanced knitters and crochet workers** requiring some specialised knowledge, such as Fair Isle, Aran and more complicated lace patterns.
- P** The Letter **P** after any star grouping suggests that an additional degree of patience is required.

HELPING YOU TO READ GRAPHS

A graph is like a picture of your work (looked at from the right side of the finished work), with each square representing a stitch.

For **Fair Isle**, different symbols are used to represent different colours, and you work in stocking stitch, reading knit rows from right to left and purl rows from left to right (unless otherwise stated).

For **Picture Knitting**, heavy lines are generally used to represent changes between colours, with symbols being used in more intricate areas. Again, you work in stocking stitch, reading knit rows from right to left and purl rows from left to right (unless otherwise stated).

For **Textured Patterns**, different symbols are used to represent different stitches (knit, purl, slip, etc). You read the right-side rows from right to left and

the wrong-side rows from left to right (unless otherwise stated). Some knitters are confused by the fact that the same symbol will be used for a purl stitch on a right-side row as for a knit stitch on a wrong-side row — the fact is that they both look the same from the right side, and the graph is a “picture” of your work from the right side.

When reading any graph, first look for your size on the edge where you are to begin, then work from this point across the row to where your size is marked on the other side. If there is a pattern repeat on the graph (usually marked by a bracket and the words “10 st rep” - or similar), you must work these stitches as many times as necessary to get to the required distance from the end of the row (this is the same as saying, in a written pattern, “rep from * to last ... sts”).

Key

- ☐ = Knit st on right side and purl st on wrong side.
- ☒ = Purl st on right side and knit st on wrong side.

MAKE UP

BACK-STITCH SEAM

This is the method most commonly used for joining knitted garments. The seam should be sewn one full stitch in from the end of each row so that all seams will be even. One stitch should be worked over every row. Darn in all ends of yarn after sewing seams.

KNITTING UP STITCHES.

This is the method used for neckbands, armhole bands, etc. Hold work in left hand with right side facing you. Hold working needle and yarn in right hand. Insert point of needle through work from front to back. Wrap yarn round point of needle and knit a stitch.

When working along a cast-off edge, insert needle under both loops of cast-off stitch, and knit up one stitch in each cast-off stitch. (Diagram A).

When working along side edge, insert needle inside one full stitch from the edge (i.e. behind 2 loops of stitch, not just the edge loop). (Diagram B).

You will find along this edge that there is alternately one long and one short stitch. If you require less stitches than there are along this edge, always knit up through the short stitches and omit some of the long stitches. (Diagram C).

Before commencing, always count the number of rows you have and compare it to the number of stitches you require, then you will be able to make any adjustments evenly along the length of the work.

If you find it difficult to knit up stitches neatly, try using needles 1 or 2 sizes finer than those in the instructions — but do not forget to change back to the correct size for knitting the band.

DO NOT PRESS. Using a flat seam, join edges to form a circle, taking care not to make seam too tight. Roll shawl in a damp towel for several hours, then spread out flat in a circle, pin each point out separately with **rustless** pins and leave until dry. 🧺

Flat Seam.

This method is sometimes used for knitted garments but more often for crochet garments. A flat seam may be worked from either the right or the wrong side of the work. Place the 2 pieces of fabric evenly together and sew stitch by stitch, always bringing the needle up from underneath to top through the centre of the stitch, then in same manner through corresponding stitch on second piece of fabric.

Note—Diagram shows knitted fabric, but method is the same for knitting or crochet. Always keep work elastic—there should be as much stretch in your seam as there is in the rest of your garment.

HELPFUL HINTS

Neatening of cast-off buttonholes. When working the row after buttonhole has been completed, with right-hand needle pick up purlways the loose thread, or threads, at base of buttonhole, slip it on to left-hand needle and work it together with the first stitch on left-hand needle.

Alternatively, when working the cast-on row of buttonhole, before slipping the last cast-on stitch on to the left-hand needle, pass the yarn from back to front between the needles, then slip the stitch on to the left-hand needle and complete row.

TO MAKE A TWISTED CORD

Method requires two people. Take as many strands of yarn as required, approximately three times the length required for the finished cord. Knot each end and slip a pencil between strands. Each person holds yarn just below pencil with one hand and twists pencil clockwise with other hand, keeping yarn taut. When yarn begins to kink, catch centre over door-knob or back of chair. Bring pencils together for one person to hold, while other grasps centre of yarn, sliding hand down and releasing at short intervals, letting yarn twist. Knot ends to prevent unravelling.

POM-PONS

To make a Pom-Pon, cut two circles of cardboard, the diameter depends on the size of the Pom-Pon to be made, and should be equal to the size of the finished Pom-Pon plus approximately 1.25 cm for trimming, plus the diameter of the centre hole, e.g., for a Pom-Pon 4 cm across, the circles would be 4 cm, plus 1.25 cm, plus 1.25 cm for centre hole, equals 6.5 cm. Cut a round hole in the centre, the size of the hole is approximately a quarter of the finished Pom-Pon. Wind the yarn round and round the cardboard until the centre hole is completely filled up.

Place the point of a pair of scissors between the two pieces of cardboard and cut around, keeping scissors between two circles of cardboard all the time. Using a double strand of yarn, wrap round between the two circles of cardboard, knot firmly, and take away cardboard (see diagram). Trim Pom-Pon.

CASTING ON FOR K1, P1 RIB

This is a variation of the two-needle method of casting on, and gives a very neat and elastic edge. It is **not** suitable for any rib other than K1, P1.

First you will need to read the first rib row, as this will determine how you start your casting on.

1. If you need an uneven number of stitches and the first row reads "K2, * P1, K1, rep from * to last st, K1." — Make a slip loop and place it on left-hand needle. Insert right-hand needle into loop knitways and knit a st, slip the st thus made on to the left-hand needle. ** Insert right-hand needle purlways between last 2 sts and purl a st (see diagram 1), slip the st thus made on to left-hand needle (taking care not to twist the st), insert right-hand needle knitways between last 2 sts and knit a st (see diagram 2), slip the st thus made on to left-hand needle, rep from ** for required number of sts, ending with 2 knit sts (before slipping the last st on to your left-hand needle, bring your yarn forward between the two needles, — this will keep the edge of your work neat).

2. If you need an even number of stitches and the first row reads "** K1, P1, rep from * to last 2 sts, K2." — Work as for method 1, but end with 1 knit st instead of 2.

3. If you need an uneven number of stitches and the first row reads "K1, * P1, K1, rep from * to end." — Make a slip loop and place it on left-hand needle. Insert right-hand needle into loop purlways and purl a st, slip the st thus made on to left-hand needle (taking care not to twist the st). ** Insert right-hand needle knitways between last 2 sts and knit a st (see diagram 2), slip the st thus made on to left-hand needle, insert right-hand needle purlways between last 2 sts and purl a st (see diagram 1), slip the st thus made on to left-hand needle (taking care not to twist the st), rep from ** for required number of sts, ending with 1 knit st (before slipping the last st on to your left-hand needle, bring your yarn forward between the two needles — this will keep the edge of your work neat).

4. If you need an even number of stitches and the first row reads "K2, * P1, K1, rep from * to end." — Work as for method 3, but end with 2 knit sts instead of 1.
